## Washington State Archery Association

### Please help us help the students of Washington

Schools throughout Washington State would like to offer their students an opportunity to learn Target Archery during PE class.

The "Archery – On Target for Life" program has been taught in more than a thousand schools in 36 different States. In Washington, students in 16 schools were introduced to Archery in the 2005-2006 school year.

Washington State Archery Association plans to make the program available to even more students in additional schools next year, **but we need your help!**

Each participating school needs archery equipment for the program. This equipment is offered by the manufacturers at greatly reduced cost to participating schools. The bows, arrows, and targets are very durable, safe and will serve the school and its students for many years.

Your donation to the WSAA / NASP Fund will go **100% to directly support the NASP program in Washington**. If you desire, you can designate your funds to **purchase archery equipment for a particular school in the program**.

\$2700 will **completely equip** a school and train their PE Teacher to teach Archery  
\$150 will buy the school one target (or add one to their kit)  
\$141 will buy five dozen arrows (or increase the number they have)  
\$110 will buy the school one bow (or add one to their kit)

If the donations should exceed the cost for a single school's equipment the excess will be held for the next Washington school that joins the program.

Please make your check out to WSAA and clearly mark it - For "NASP (school name)" and mail it to the above address.

Thank you very much,

Linda Parker
